

Connect your garden to the 4 R's and CA Standards

FREE 2-3 hour professional development training at your school!

Trainings are available throughout the week to any Alameda County school and its educators. We can help you link your school garden and the 4 R's to curriculum that supports the CA content standards.

Trainings also offer customized technical support on soil science, composting, reclaimed garden design, sheet mulching or more.

Participants receive...

Mini-grants to jump start your own program!

Free 4-part student program.

Free activity and curriculum readers
